

In this portfolio you will find the Arts & Crafts Invitations ...

They are invitations in which machines are used to cut out drawings (some simpler and some more intricate/detailed), collages, application of pearls or crystals, use of ribbons, application of glitter, application of eyelets, among other options.

These are more elaborate invitations and the production of them takes longer because each stage of production takes longer, but always with the purpose of conveying the image and what you like best on your wedding day.

What you have to do to buy an Arts & Crafts Invitation, you only have to go through the entire portfolio and choose from among the various models in it the one you like best.

Send this information with the desired number of invitations to the Craft Studio. Suggestion always order 5 or 6 more invitations from the ones you really need. There are always those invitations made at the last minute. As well as indicate the colors in which you want the invitation to be produced.

The Craft Studio has a wide variety of paper options that can be used in the production of the invitations. Only one of the options/categories has 60 plain different colors.

You will later receive an email from the Craft Studio confirming the order and where you are asked for the data for the invitation text. This could be the classic format or if you prefer something more modern/relaxed.

If you need help/assistance in choosing the invitation, the Craft Studio offers help in this aspect.

If you like and in love with two models, if they can be incorporated into one, the respective budget can be indicated to you.

If you need any information or help, do not hesitate to contact the Craft Studio.
